Source code

Coinsult was commissioned by SUS to perform an audit based on the following smart contract:

<https://bscscan.com/address/0xe87cd7db93b891cac49fb09b2ec3d86cf5ed12b3#code>

Manual Code Review

● Low-risk

4 low-risk code issues found.

Could be fixed, will not bring problems.

- Weak PRNG, do not use `block.timestamp` as a source of randomness as this can be manipulated by miners.

```
function dayZero () public view returns(uint256) {  
    return block.timestamp-(block.timestamp%(24*3600))-(8*3600);  
}
```

- Avoid relying on `block.timestamp`
`block.timestamp` can be manipulated by miners.

```
block.timestamp-(block.timestamp
```

- Missing zero address validation
Check that the new address is not the zero address.

```
constructor (address _addr) {  
    _owner = _addr;  
    emit OwnershipTransferred(address(0), _addr);  
}
```

- Literals with many digits are difficult to read and review.
Recommendation: Use Ether suffix, Time suffix, or The scientific notation

```
uint256 public totalNum=900000000*10**18;
```

● **Medium-risk**

0 medium-risk code issues found.

Should be fixed, could bring problems.

● **High-risk**

0 high-risk code issues found

Must be fixed, and will bring problems.

Extra notes by the team

- The ownership of the contract isn't renounced.
- Owner can exclude addresses from fees.
- Owner cannot change fees.

Rug-pull Review

Based on the available information analyzed by us, we come to the following conclusions:

● Locked Liquidity

● Large unlocked wallets

- Note: Two wallets containing both 32% of the total supply

● No doxxed Team

Honeypot Review

Based on the available information analyzed by us, we come to the following conclusions:

● Ability to sell

● Owner is not able to pause the contract

● Router can be changed

Note: Please check the disclaimer above and note, the audit makes no statements or warranties on business model, investment attractiveness or code sustainability. The report is provided for the only contract mentioned in the report and does not include any other potential contracts deployed by the project owner.
