Disclaimer

Coinsult is not responsible if a project turns out to be a scam, rug-pull or honeypot. We only provide a detailed analysis for your own research.

Coinsult is not responsible for any financial losses. Nothing in this contract audit is financial advice, please do your own research.

The information provided in this audit is for informational purposes only and should not be considered investment advice. Coinsult does not endorse, recommend, support or suggest to invest in any project.

Coinsult can not be held responsible for when a project turns out to be a rug-pull, honeypot or scam.

Tokenomics

Rank	Address	Quantity (Token)	Percentage
1	0xe4043c0dc121a589af3d257032a20c11af67c65a	105,000,000,000	50.0000%
2	0x8bdd9cd768dd5467367502b2bd5586b1aee1959b	42,000,000,000	20.0000%
3	0x6997615bf1fb75e99f634e3229b0b47f4251e552	21,000,000,000	10.0000%
4	0xcdbeb16cf47b337fd32716016868d7d67c4f47e1	21,000,000,000	10.0000%
5	0x94f664b75a40e1c0e5711746159932af3736e76d	13,129,918,400	6.2523%

Source Code

Coinsult was comissioned by F8 Token to perform an audit based on the following smart contract:

<https://bscscan.com/address/0x96c1823e9df2cb580b04e3ee0d6f3d5069385229#code>

Manual Code Review

In this audit report we will highlight all these issues:

Low-Risk

1 low-risk code
issues found

Medium-Risk

0 medium-risk code
issues found

High-Risk

0 high-risk code
issues found

The detailed report continues on the next page...

● **Low-Risk:** Could be fixed, will not bring problems.

Redundant Statements

Detect the usage of redundant statements that have no effect.

```
function _msgData() internal view returns (bytes memory) {  
    this; // silence state mutability warning without generating bytecode - see https://github.com/ethc  
    return msg.data;  
}
```

Recommendation

Remove redundant statements if they congest code but offer no value.

Exploit scenario

```
contract RedundantStatementsContract {  
  
    constructor() public {  
        uint; // Elementary Type Name  
        bool; // Elementary Type Name  
        RedundantStatementsContract; // Identifier  
    }  
  
    function test() public returns (uint) {  
        uint; // Elementary Type Name  
        assert; // Identifier  
        test; // Identifier  
        return 777;  
    }  
}
```

Each commented line references types/identifiers, but performs no action with them, so no code will be generated for such statements and they can be removed.

Owner privileges

- Owner cannot set fees higher than 25%
- Owner cannot pause trading
- Owner cannot change max transaction amount

Extra notes by the team

No notes

Contract Snapshot

```
contract F8TOKEN is Context, IBEP20, Ownable {
    using SafeMath for uint256;

    mapping (address => uint256) private _balances;

    mapping (address => mapping (address => uint256)) private _allowances;

    uint256 private _totalSupply;
    uint8 public _decimals;
    string public _symbol;
    string public _name;
```

Website Review

Coinsult checks the website completely manually and looks for visual, technical and textual errors. We also look at the security, speed and accessibility of the website. In short, a complete check to see if the website meets the current standard of the web development industry.

- Mobile Friendly
- Does not contain jQuery errors
- SSL Secured
- No major spelling errors
